OUTDOOR KITCHEN CONSIDERATIONS

- Carefully consider grill size & accessories needed
- Combustible construction requires insulating liner
- Select Natural or Propane (LP gas)
- Determine total gas consumption for supply line size
- Access required to gas connections and shut off valve
- Plan location of propane tank away from grill and appliances
- Always refer to the installation and operating instructions of your American Outdoor Grill® and/or accessories for installation guidelines & safety warnings before starting your project
- Always check all gas connections for leaks
- Provide ventilation in island for gas vapors. Allow at least four ventilation openings (two at floor level and two 16” above floor 10 in² each) at opposing ends/sides

LOCATION

- Identify outdoor area where grill will be installed
- Determine the utilities needed (gas, water, electricity, drainage etc.)
- Consider element exposure (sun, wind direction, weather etc.)

MATERIALS

- Foundation - concrete
- Base - brick, stone, stucco, concrete
- Counter top - tile, granite, marble, concrete

Grill Insulating Liners

(must be used when installing in a combustible island)
